IV THERAPIES

THE NEW FOUNTAIN OF HEALTH

WHAT IS INTRAVENOUS (IV) NUTRIENT THERAPIES?

IV (or intravenous) therapies administers high dose vitamins, minerals, or amino acids directly to the body through your vein.

IV therapies effectively treat nutrient imbalances while bypassing the gut. As a result, you can get up to 10 times the nutrients from one IV treatment than through oral supplements.

WHO COULD BENEFIT FROM IV NUTRIENT THERAPIES?

SUB-OPTIMAL HEALTH

- Allergies
- Fatigue
- Low energy
- Low immunity
- Dull skin
- Mood issues
- Sleeping problems
- Brain fog

DISEASES

- Diabetes
- Heart disease
- Migraines
- Weight issues

DEGENERATIVE DISEASES

- Cancer
- Dementia

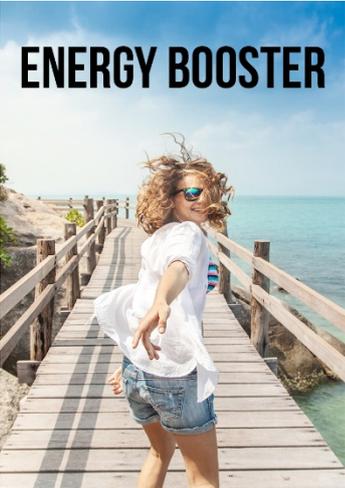

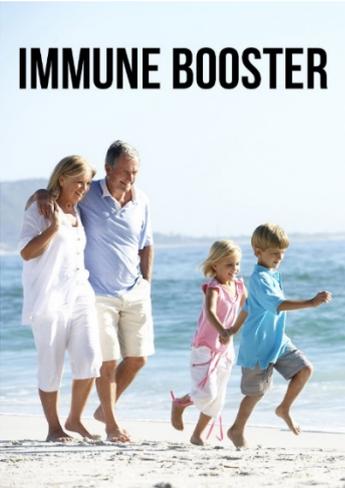

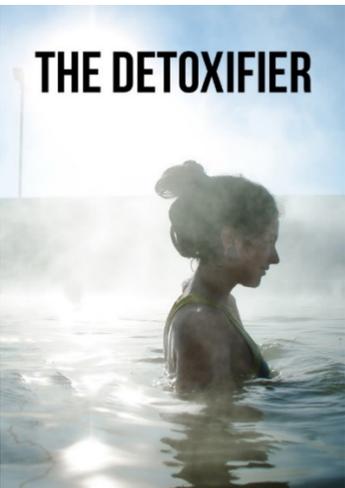

BENEFITS OF IV NUTRIENT THERAPIES

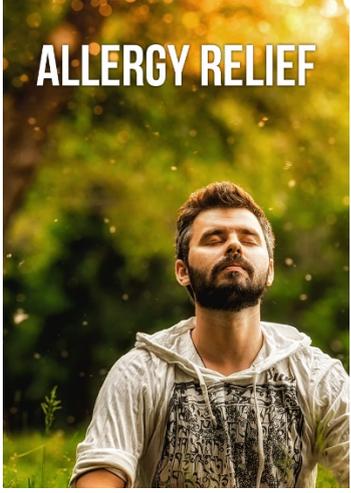

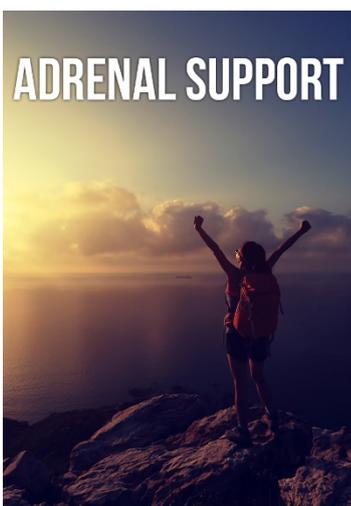

There are numerous benefits of having an IV nutrient therapy including:

- ✓ **Improved energy levels and overall mood** – absorption of vital fluids and micronutrients directly to your body leads to longer lasting energy and a happier state
- ✓ **Improved immune system and function** – tailored infusion therapies support your body's metabolic reactions and circulation leading to improved immunity
- ✓ **Improved quality of sleep** – essential IV fluids and vitamins that support sleep function and get your body clock back on track
- ✓ **Improved detoxification function** – detoxification pathways are supported and backlog of toxins removed
- ✓ **Improved skin appearance** – vital antioxidants nourish your skin leading to a healthy glow
